

THE VOICE OF A NEW ERA

## KEY RELEASES

### BIO

RAW T is not just a name – it's my way of turning feelings, observations and experiences into sound.

I'm Andreas from Bremen – musician, bus and tram driver, someone who watches life closely and transforms those moments into songs.

My music moves between dark pop, cinematic sounds and ballads – sometimes loud, sometimes fragile, always honest. Many of my songs are socially critical, reflective and cautionary, inspired by what I see around me.

Every cover and video comes straight out of my head. I use AI as a tool, but never as a replacement.

„RAW T is no mask – it's real, raw, unpolished, straight from life.“

### SIDE PROJECTS

Aivotion – Spirituality × Music

Aivotion is my spiritual outlet – music that connects faith, hope and reflection with epic cinematic sounds. Songs like “Du bist die Liebe” and “You're Not Alone” are deeply emotional and uplifting, reminding us that even in dark times, we are not alone.

Tiger der Strassenbahn – BSAG Tribute

This project is dedicated to my colleagues at Bremen's public transport, where I work myself. The album “Bremen fährt – Wir sind die Crew” (2025) tells real stories from everyday life – a tribute, but also a reminder of how much we all depend on each other. The project was even featured on Radio Bremen Vier.
